

BioNator

Biological Odour Eliminator and Deep Cleaner

Description

BioNator is a highly effective odour eliminator and deep cleaner, which quickly and easily cleans all types of surfaces and eliminates organic odours at the source.

BioNator combines “odour control technology” which rapidly binds and holds the bad odours with “biological activity” which then destroys the bound bad odour molecules – thus completely eliminating the odour.

BioNator also contains sophisticated, non-resoiling cleaning capabilities designed specifically for fabric carpet and upholstery stain and odour removal.

Product Features

- Contains biological activity and surfactants that remove dirt and organic matter.
- Eliminates malodors such as urine, sweat, rancid foods, and other organic odours.
- Ideal for stain and odour removal from laundry, carpets, and upholstery Will seep through carpet padding and upholstery to get deep into the fibers where urine and other organic odour molecules hide.
- Highly effective in garbage collection areas – will even eliminate fruit flies which cannot nest due to the nature of the probiotics formula.
- Contains no VOC's*

Applications

General Purpose Cleaning	Bathrooms & Shower Rooms	Carpet & Upholstery
Garbage Collection Areas	Sports Equipment	Glass & Mirrors
Restaurants	Barns & Stables	Dirty & Smelly Clothing

Physical Properties

Appearance:	Turbid Liquid
